

## **JUBILEE**

Like a withered tree  
Longing in the wilderness  
Waiting far too long  
For the day of desert springs  
And the blooms of all our hope  
Like the dissonance of  
The dark before the dawn  
Waiting far too long  
For the light to sing its song  
And resolve to a new day

Every prayer brings us closer  
Every tear is a page turned

Like a yearning child  
Face pressed on the window pane  
Waiting far too long  
For their father to come home  
From when the battle has been  
won

Jubilee  
When we're dancing in the streets  
And the fault lines all recede  
And the valleys meet the peaks

## **STAY**

It's hard for me to admit it  
But I'm not strong enough on my  
own  
Wouldn't last but a minute  
'Cause I'm not built to do this alone

And when You pull me close, it's  
like a light to my soul

Don't let me push You away, I need  
You and I know

As long as You stay, I'm gonna be  
okay  
The wind can blow but I won't break  
No matter the pain, You never run  
away  
And there's no world where I'm not  
safe  
As long as You stay, I'm gonna be  
okay  
As long as You stay

You know I tend to wander  
But all it takes is a whisper and  
You're back here  
I want our hearts to be tethered  
So there's no moment You're not  
near

And when You pull me close, it's  
like a light to my soul (my soul)  
Don't let me push You away, I need  
You and I know

As long as You stay, I'm gonna be  
okay  
The wind can blow but I won't break  
No matter the pain, You never run  
away  
And there's no world where I'm not  
safe  
As long as You stay, I'm gonna be  
okay

As long as You stay with me  
Won't You hold on when I try to  
leave  
You don't play hide and seek

Your love is always chasing me

As long as You stay, I'm gonna be okay  
The wind can blow but I won't break  
No matter the pain, You never run away  
And there's no world where I'm not safe

As long as You stay (stay, stay), I'm gonna be okay (okay)  
(Oh-oh-oh-oh) as long as You (stay, stay)  
I'm gonna be okay (okay)  
As long as You stay

## **YESTERDAY, TODAY & TOMORROW**

You know my heart, you know my scars  
And everything I feel and  
You've seen my worst and still returned  
To help me up and carry  
All of the things I bet, the things that weigh me down  
Lord, you remind me, I'm surrounded here and now

Ooh, yesterday I saw your favor  
Ooh, tomorrow I'll believe for greater  
Ooh, and all that I could ever need today  
I have found within the promise of your grace

It's supernatural but tangible and real

That you would walk with me and feel the things I feel  
It's unexplainable that you would choose the cross  
Just for a chance that I would come to know your love

Ooh, yesterday I saw your favor  
Ooh, tomorrow I'll believe for greater  
Ooh, and all that I could ever need today  
I have found within the promise of your grace  
You're with me in the morning  
You're with me when the sun goes down

You're faithful like no other  
No, you can never let me down  
You catch me when I'm falling  
You're everything I need right  
You're faithful like no other  
No, you can never let me down  
No, you can never let me down

Ooh, yesterday I saw your favor  
Ooh, tomorrow I'll believe for greater  
Ooh, and all that I could ever need today

I have found within the promise of your grace
